

INFORMATIONAL MEETING

FOR IMMEDIATE RELEASE

January 17, 2017

Bolton, VT – An informational Meeting for the project listed below will be held on Thursday, February 2nd, 2017 beginning at 6:30 PM at the Smilie School , located at 2712 Theodore Roosevelt Highway. The meeting will be held by the Vermont Agency of Transportation (VTrans) and the Town of Bolton.

Rehabilitation project:

- Bolton IM 089-2(45) – I89, Bridge #51-3 over Town Highway 4 (Notch Road)

The preferred alternative consists of making structural repairs as well as installation of a designated pedestrian crossing along the inside of the culvert. The proposed final condition would be alternating one lane traffic with an 11' travel lane, two-foot-wide shoulders, and a 5' sidewalk. Traffic will be maintained by phasing along with a weekend closure to make the repairs along the center of the box.

The intent of the meeting is to provide an overview of this bridge project to Town Officials, local residents and businesses, emergency services and other interested parties. There will be a review of the existing site conditions, proposed work, detour, and overall schedule followed by a question and answer period. Representatives from both VTrans and the Town of Bolton will be available at the meeting to address public concerns about the projects.

A copy of the Revised Scoping Report for this project may be seen at the office of the Town Clerk in Bolton, or at the Structures Section of the Agency of Transportation's office in Montpelier, Vermont. An electronic copy is also available online at:
