

Bolton Conservation Commission

Minutes of April 9, 2007

In attendance: Tony Barbagallo, Lars Botzjorns, Amy May, Sharon Murray

1. NRI Research update: Tony said Pam Bragnan has the layers we need. He is working with her to get maps made.

Sharon said the phase 1 study of the Winooski is done which includes the Joiner Brook. CCRPC would like to meet with us. A joint meeting with the planning commission may be a good idea.

2. Conservation Fund: There will be a revote on the conservation fund because a petition was submitted calling for it. It was not known when it would happen.
3. CRAG-VT: CRAG is interested in speaking with the Town about transferring the land they own. The BCC agreed they should be encouraged to seek out other owners of the land such as another land trust.
4. Corrections on meeting time and BCC membership should be submitted to Deb and for the website.
5. Old Business: Tony questioned if Bolton Valley had submitted the protection for the Bicknell Thrush.
