

SUMMER WRAP UP 2019

By: Bolton History Group

That's a wrap on cemetery restoration for 2019! This summer we completed cleaning in the East Bolton cemetery. Moving on to West Bolton where we completed 15 headstones in September for a total of 23 completed there. The East Bolton cemetery sure looks amazing as you pass by! 2020 will see much of the same in West Bolton and we hope we can get the cleaning completed by summers end 2020. That is a huge task and volunteers will be needed as always, the more community involvement the better the project will go so we look forward to more hands next year! Special thank you to all who volunteered their time and or praise to this ongoing project!

The LaFreniere family gathered the end of September for a Potluck and viewing of 8mm film reels that belonged to Bolton family members Leo and Bertha (Preston) LaFreniere. Grandson Ron (Joe) LaFreniere had the films converted to DVD which provided over an hour of silent film. Some footage included the Winooski river raft races, farm & family life, celebration gatherings, logging with horses, and the centennial wagon and horse parade as they passed by the farm. This winter may provide a good time to share this silent film with the townsfolk's of Bolton. Stay tuned for details!

Look for upcoming winter meeting and event details in future Gazettes.
