### FLOOD ZONE LEGEND

**Zone AE**  
 Base Flood Elevations determined. The Base Flood Elevation is the water-surface elevation of the 1% annual chance flood. The 1% annual chance flood (100-year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year.

**Floodway Areas in Zone AE**  
 The floodway is the channel of a stream plus any adjacent floodplain areas that must be kept free of encroachment so that the 1% annual chance flood can be carried without substantial increases in flood heights.

**Other Flood Areas**  
 Areas in which Flood hazards are undetermined but possible.
