85

86 Applicant gave a brief introduction to the project.

87 Members asked how the existing slope was created. Applicant thought that the slope was built out of
88 material from the original construction site.

89 Members asked how the stormwater would be directed. Applicant described how existing stormwater
90 moves and how stormwater will be routed around the new structure. Drainage system will be
91 constructed out of perforated pipe and crushed stone.

92 Steve Diglio, as a neighbor to John Choate, provided his knowledge of the topography in the
93 neighborhood and of John's property.

94 Members then discussed the waiver application. Applicant stated that the boundary stakes are accessible,
95 and that he likely will not need the entire 12.5' setback waiver. Members asked about existing vegetative
96 screening. The applicant confirmed that area between proposed garage and neighbor is heavily wooded.
97 Applicant also confirmed that the garage will not have outdoor lighting.

98 Members asked if the workshop was needed, as the workshop was triggering the setback waiver.
99 Applicant stated that he needed outdoor storage, and that he was constrained by boundary lines and
100 slopes on his property. Members asked about the width of the driveway in front of the garage, the width
101 of the turnaround area in front of the garage. It was estimated that the turnaround was 25-30'. Members
102 then inquired about the distance between the house and the proposed garage, which the applicant
103 estimated to be 5'.

104 Zoning Administrator Jon Ignatowski felt that the current plan, which combined storage with the garage,
105 created the least amount of impacts.

106 Steve Diglio stated that he believed the neighborhood was mis-zoned, and the setback waiver provision
107 was created for this neighborhood.

108 Members discussed the depth of the garage. The applicant is proposing a depth of 20', and it was
109 determined that the applicant could not increase the depth.

110 Members concluded that they felt that there was a path to approval. Members also felt that the
111 application was not lacking in information.

112 Rob Ricketson made a motion to close the hearing. John Devine seconded. The motion passed (4-0) with
113 all eligible members voting in favor.

114 **Meeting Minutes:** The meeting minutes for 1.28.21 and 2.25.21 were reviewed and approved.

115 **Zoning Administrator's Report:** Jon I. provided information about recent zoning permits issued and
116 those in the pipeline. He discussed the PC's 2020 BLUDR and Town Plan amendments, the UPWP
117 projects that were accepted, and the Cornell summer intern.

118
119 **Organizational Meeting:** John Devine and Adam Beaudry agreed to serve new terms on the
120 Development Review Board. Steve Diglio asked if anyone else wanted to be chair, but no one
121 volunteered to take the position. John Devine made a motion to maintain the current organization of the
122 DRB. Rob Ricketson seconded. The motion passed (4-0) with all eligible members voting in favor.
123 Spencer Nowak made a motion to renew the terms of John Devine and Adam Beaudry. Rob Ricketson
124 seconded. The motion passed (4-0) with all eligible members voting in favor.

125

126 **Deliberative Session:** Rob R. made the motion to enter deliberative session. Adam B. seconded. The
127 motion passed (4-0) at 7:30 p.m. Steve D. did not participate in the deliberative session.

128

129 Adam B. made the motion to exit deliberative session. Rob R. seconded. There was no further
130 discussion and the motion passed (4-0) at 7:55 p.m. No decisions were made during this deliberative
131 session.

132

133 **Next scheduled DRB meeting:** Thursday, April 22, 2021, 6:30 p.m. (Virtual/online meeting only,
134 unless otherwise noticed in posted agenda.)

135
